

5 REASONS TO JOIN THE SUPERCYBERKIDS PILOT FOR SCHOOLS

1 Empowering Future Citizens

SuperCyberKids helps students aged between 8 and 13 develop critical skills to safely navigate today's digital world, empowering them as responsible digital citizens. It's impossible to protect them from all harm, but you can prepare them to make responsible decisions themselves!

2 Engaging Learning

Kids learn cybersecurity through exciting, interactive games tailored to their age group, making complex topics accessible and fun.

3 Gamified Assessments

Knowledge assessments using everyday situations familiar to students enhance their interest and motivation and allow teachers to easily assess the classroom's knowledge of cybersecurity issues.

4 Flexible and Teacher-Friendly

The platform is designed to easily integrate into classroom activities with ready-to-use lesson plans and flexible, age-appropriate content.

5 Supports whole-school environment

Resources for teachers, parents and students make cybersecurity education a community effort, fostering a safer school environment.
